Precondition	
Step1: Open Website <a href="https://todolist.james.am/#/">https://todolist.james.am/#/</a>	Website opened
Step2: Check if all elements are clearly visible	1.Issue:To do list difficult to see, low contrast 2.Issue: "Double click edit to do" very small size hard to read
Step3: Test the layout and appearance of UI elements in different screen size	1.Issue: "To-Do list" letters get on top of each other if screen size is bigger 2.Issue: main field appear as three separate windows
Step4: Test items counting 1.add multiple items to the list (2-3)items 2.Mark one item as done 3.Check if it counts correctly	Issue:Counter shows 0 items remaining when there is still 1 item left
Step5: Testing clear all functionality 1.Create a long list of tasks 2.Attempt to press button "clear all" without clicking on each task from "to do list"	Issue: "clear all" button doesn't delete all the list without checking each box from the task
